Documents are only available in English.	Our documents are available in English, German and Spanish. We sell similar products around the world, in more than 45 nations.
Documentation is a jumble of in-depth policies and procedures that were created for large companies.	Our documents were designed especially for small to mid-sized companies. This means we don't include anything you don't need, and each document is shorter and less complex.
You have to buy the entire toolkit at once.	We offer each template separately. And, if you later decide that you want to buy the whole Toolkit, we'll deduct what you already paid for individual documents – you don't have to pay for the same template again!
Other providers only offer the toolkit – no guidance of any kind.	We provide the following FREE services: (1) a virtual consultant, (2) an expert consultation via phone or Skype, (3) a review of any 3 completed documents, (4) community support, and (5) specific guidance regarding what is mandatory and what can be deleted from the documents.
<p>“We'll just use the free templates that we found on the internet.”</p> <p>Unfortunately, these free materials only cover about 20% of the documents, with no guidance.</p>	Our templates comprise 100% of the documents required by ISO 9001, with guidance on how to complete them.
