

## PLEASE READ THIS FIRST

Thank you for downloading a free preview of our NIS 2 Documentation Toolkit!

For an easier start, please read these few instructions:

- 1) The **documents in the Toolkit are sorted in a sequence** that should follow your NIS 2 implementation – folder 1) contains the Project Launch Decision; the next folder contains the Project Plan, and so on.
- 2) In the root folder of the Toolkit you'll find the file named **“List of documents”**, which describes some very important things: which documents from the toolkit are strictly mandatory by NIS 2 and what they are relevant for.
- 3) If you **receive an error opening certain files**, this is probably because the file name is too long – please copy the file to your Desktop and it should open normally there.
- 4) Please read the **Terms of Use for Documentation** located in this folder.
